

Dr. Carsten Mueller holds a M.Sc. degree from the University of Liechtenstein in Vaduz and a Ph.D. degree from the University of Economics (Department Informatics and Statistics) in Prague. His research interests are Component-based Software Engineering and Software Architecture Optimization using Swarm Intelligence. He works as an independent senior consultant in the areas of Software Architecture and Process Optimization for more than 15 years. He is a senior lecturer for Software Engineering and algorithms at the Baden-Wuerttemberg Cooperative State University in the Department of Applied Informatics in Mosbach, Germany. He is Head of Swarm Lab and leads the research group for Swarm Intelligence ([research@ieoca.org](mailto:research@ieoca.org)).
